Zentech & Houston Police Department Gear Donation

On Tuesday, January 12, 2021, Zentech Incorporated met with the Houston Police Department's Narcotics Tactical Team to view the new body carriers purchased with donated funds. Through the Houston Police Foundation, a donation was made to help assist this Taskforce with their day-to-day operations. "This body armor carrier helps us do our jobs better – in the hot Houston summers, most officers aren't able to take their gear off because it's under their uniform. These carriers are easy to take off to allow us to cool down. Another added bonus is being able to carry equipment we typically wear on our belts, on the carrier themselves. Thus, making moving around easier and better," said a Houston Police Department Team Member.

"In these dangerous times, no one has it worse than our Law Enforcement Officers. It is our duty to help them as they help us. We support the Blue Line and the Houston Police Department for going out everyday putting themselves

in harm's way, to serve and protect us," said Zentech Director of Operations, Ravi Maini.

Zentech is a proud supporter of the Houston Police Department and the Houston Police Foundation.

Zentech Incorporated is a Houston based marine engineering and naval architecture firm specializing in the offshore oil and gas and renewable energy industries. The company has more than forty-three (43) years of experience in providing innovative engineering solutions and employs a professional staff of over 180 in six (6) international locations.
